**Subject:** Haystack - Vandever's CDEC application

Good afternoon Shelby,

We were notified today that CDEC would like us to stake the location for each trailer where the electric pole is expected to be. This would require 1 person from lina Ba to go to each new homesite location and place a stake in the ground. This will allow CDEC to know exactly where we will need power for each trailer so they can easily determine where new poles will be required. I know we do not currently have a letter from Navajo Nation stating our work is essential, however, I was hoping to get written approval from the NNEPA saying we can proceed with this limited scope. Our contractor will not need to talk to anyone and will be able to drive straight to the location to place the stake and leave, thus, minimizing the potential for COVID transmission.

With NNEPA approval, I will get a date from lina Ba so Vivian can inform the families.

Thanks  
Ali
